- 12.3. The Director of Soil & Water Conservation Meghalaya, Shillong reserves the right to open or not to open the financial bid in sealed ***Sealed Cover B*** of any bidder without assigning any reason(s) thereof.

13. EARNEST MONEY DEPOSIT :-

- 13.1 Each bidder must furnish along with his tender, Earnest Money @ 2% of the total amount quoted (@ 1% for scheduled tribe/scheduled caste contractor) in any approved form of deposit like F.D./C.D. from a scheduled Commercial Bank pledged to Director Soil & Water conservation

Meghalaya, Shillong. Any tender not accompanied by the requisite Earnest Money will be summarily rejected by the Director Soil & Water conservation, Meghalaya, Shillong, as non-responsive.

- 13.2 The Earnest Money or the Fixed Deposit for the amount prescribed above will be forfeited to the Government if the selected contractor fails to or refuses to furnish the Security Deposit and sign the agreement, or start the work within the stipulated time. The Earnest Money will be forfeited if the bidder withdraws his tenders during the validity period of his tender.
- 13.3 The Earnest Money Deposit should be valid initially for at least 90 days from the date of expiry of the validity period of tender.
- 13.4 The Earnest Money of the unsuccessful bidder will be refunded on application by the bidder.

14. CONDITIONS RELATING TO AWARD OF WORK

The successful bidder will be notified by a letter that his tender has been accepted. The successful bidder will have to furnish the necessary *Security Deposit* as per items and conditions mentioned in *clause no.16.1* and sign the formal tender agreement to be drawn up by the Department within 30 (thirty) days of communication of acceptance of his tender. No Work shall commence before signing of the formal tender agreement.

15. SECURITY DEPOSIT

- 15.1 The successful bidder will be required to furnish security deposit for due fulfillment of his contract. The total security deposit will be 10% (ten percent) of gross payment to the contractor; but however, a security deposit in any approved form of deposit amounting to 2% (two percent) of the value of the contract will have to be furnished by the successful bidders at the time of signing of formal tender agreement and before issue of Final Work Order. The balance of the security deposit shall be recovered from the contractor from his interim bills @ 8% (eight percent) from subsequent payment.
- 15.2 The recovery of Security Deposit deduction from running account bills do not arise in case the contractor deposits the **TOTAL** security deposit in the form of Government securities of deposit at call receipts for total amount acceptable to the Government duly pledged to the Director of Soil & Water Conservation Department, Shillong.
- 15.3 The recovery of security deposit will be retained by the department for a period of **6 (six) months** after completion of the work during the defect liability period. But, for any reason, if the final payment of the work is not made within 6(six) months of the date of completion, the validity of the security deposit shall have to be extended up to the date of final payment.
- 15.4 In case the contractor does not complete the work or leaves the work or part of it unfinished the security deposit by the contractor will be forfeited to the Government and recovery in the form of penalty may be imposed due to non - completion of work.

16. MATERIALS

Constructions materials like cement and steel shall have to be procured by the contractor /firm themselves at their own arrangement. The constructions materials conforming to I.S. specifications shall be procured by the contractor/firm from any of the registered/authorized dealers/manufacturers. Documentary proof of purchase like cash memo, sales tax certificate, test report etc should be submitted to the Engineer concerned for his necessary verification and subsequent acceptance/rejection which is final.

- (a) HYSD Steel :(Grade of steel Fe 500 conforming to IS: 1786.-2008)
- (b) Cement Ordinary Portland cement conforming to IS: 269 and IS: 456.
- (c) Bricks – First Class Brick Conforming to I.S Code.
- (d) Aggregates – Conforming to I.S Codes

17. STORAGE

- 17.1 Materials required for the work shall be procured by the contractor and shall be stored by the contractor at his own risk. If during construction, it becomes necessary to preserve or shift the stored materials, shed, workshops etc to facilitate construction of the building or the approach roads, the contractor shall have to do so at his own cost as directed by the Engineer- in-charge.
- 17.2 The contractor shall exercise utmost care while using an inflammable material or during construction works so as not to endanger life and property and he/she shall be solely responsible for any damages resulting from the use of such materials or careless action or negligence of safety.

18. SAMPLING AND TESTING

- 18.1 The contractor shall at his own expense get the samples/cubes of materials proposed to be used in this work tested and to furnish the test reports to the Engineer in-charge within 21(twenty-one) days from the date of sampling.
- 18.2 If samples are not approved, the contractor shall forthwith arrange to supply to the Engineer in-charge for his approval of fresh samples complying with the specification laid down with the contract.
- 18.3 The Engineer in-charge shall be entitled to have test carried out as specified in the contract for any materials supplied by the contractor other than that for which satisfactory proof has already been furnished, at the cost of the contractor and the contractor shall provide at his expenses all facilities which the Engineer in-charge may be required for the purpose.
- 18.4 The cost of materials consumed in tests shall be borne by the contractor in all cases. Cost of all the field tests is deemed to be included in the Rates quoted by the contractor and nothing extra is payable. Routine tests shall be carried as per the requirement for quality control and as directed by the Engineer In-Charge. Any test which cannot be carried at the field lab and directed by Engineer In-Charge shall be got done from the approved laboratory

19. DEFECTIVE MATERIALS:

- 19.1 All materials used in construction work without prior inspection (and where necessity testing) and without approval of the Engineer In – Charge is liable to be considered un–authorized and defective.
- 19.2 The Engineer In-Charge shall have full powers to remove any or all of the materials brought to the Site by the contractor that are not in accordance with the contract specification or do not conform in character or quality to the samples approved by him or do not conform to the relevant I.S.I/B.I.S specifications. In case of default on the part of the contractor in removing the rejected materials, the Engineer In-Charge shall be at liberty to have them remove by other means at the cost of the contractor.
- 19.3 The Engineer In-Charge shall have full power to with regard to utilization of proper materials at the Site and he may ask the contractor to replace the rejected materials so that the quality of work is not compromised.

20. PROGRAMME OF WORK/CONSTRUCTION:

- 20.1 Time is the essence of the contract and it shall be clearly understood that the contractor is bound to complete the work in all respects within the time period as specified vide clauses of the contract agreement.
- 20.2 The work shall be carried/executed as per the detailed Programme of Work drawn up by the contractor/bidder and submitted along with the tender/bid. The Programme of work shall give the forecast of the schedule dates of commencement and progress of the various construction stages of

the work till completion as per the time allowed. It shall also indicate the time schedule for all preliminary arrangement, the contractor intends to make before starting the work. The progress schedule after modifications, if any during the progress of seeking clarifications while examining the tender shall be form a part of the contract agreement. In absence of such programme of work, a detailed Programme shall be drawn up by the Engineer In-Charge which shall be binding on the contractor and shall form a part of the contract agreement.

- 20.3 The progress schedule of work may be amended, as and when necessary by agreement between the Engineer In-Charge and the contractor within the limitations of the contract agreement with prior approval of the competent authority.
- 20.4 Any major changes in the Programme of Work shall be intimated by the contractor to the Engineer In-Charge in writing and subsequently to be approved by the Director. Minor changes will only be recorded in the work register which shall be maintained at the contractor's Site office throughout the period of execution of work, open for inspection by the Engineer In-Charge or his representative.
- 20.5 The work may be carried out only during the day irrespective of Sundays and Holidays as considered by the contractor. For work on Sundays, Holidays and nights, the contractor shall have to give prior notice in writing to the Engineer In-Charge or his representative, so that Supervisory staffs can be deputed in time. The contractor shall not be allowed to execute any permanent nature of work in absence of the supervisory staff of Engineer In-Charge, no work shall be kept suspended for more than 48 hrs(forty-eight hours) on reason of inspection or delay in taking measurements.

21. PROGRESS OF WORK and SAFETY OF WORKERS and WORPLACE:

21.1 Contractor shall provide adequate number of standard lengths of IS Stamped Fire hoses, IS Stamped DCP Fire extinguishers, fire buckets with sand and nozzles. These items can be taken back by the Contractor after completion of work. Sand shall also be maintained dry by the Contractor with fresh supply, whenever required.

21.2 Safety Helmets shall be provided to all the employees of Contractor including that of his labour contractors.

21.3 Safety Belts and Harnesses shall be provided by the Contractor in adequate number for the workers working at heights and proper safety nets around the building.

21.4 Proper earthing shall be provided for all equipment and generators.

22.1 Site Facilities

The Contractor shall arrange for the following facilities at site, for workmen deployed/engaged by him / his sub-contractor, at his own cost:

- i) Arrangement for First Aid.
- ii) Arrangement for clean & potable drinking water.
- iii) Any other facility/utility as may be required under the Contract as per the existing legislation/regulations.

22.2 Contractor's Site Office and Stores

- i) Owner shall provide land only for contractor's site office and stores and fabrication yard, if any at site. However, same shall be dismantled prior to submission of Final Bill. Also the office/stores, etc. to be relocated if found hindering the project in a planned manner.
- ii) The Contractor shall remove all temporary buildings / facilities etc., before leaving the site after completion of works in all respect.

22.3 Power and Water

- i) Owner shall not provide power and the Contractor shall be exclusively responsible to make his own arrangements for supply of power, without any extra cost to the Owner.
- ii) Water required for the works shall be arranged by the Contractor. The contractor has to make all necessary arrangement for drawing water including making temporary storage, pumping etc.

22.4 Rules and Regulations

- i) Contractor shall observe in addition to Codes specified in respective specification, all national and local laws, ordinances, rules and regulations and requirements pertaining to the work and shall be responsible for extra costs arising from violations of the same.

22.5 Procedures

- i) Various procedures and method statements to be adopted by Contractor during the construction as required as per the respective specifications shall be submitted to Engineer-in-Charge in due time for approval.

22.6 Security

- i) As the premises will be protected area, entry into the area shall be restricted and may be governed by issue of gate passes. The Contractor shall arrange to obtain through the Engineer-in-Charge, well in advance, all necessary entry permits/gate passes for his staffs and labourers and entry and exit of his men and materials shall be subject to vigorous checking by the security staff. Only authorized person(s) can enter the premises for any works.
- ii) It shall be the responsibility of the contractor to safeguard all his materials/owned from theft, damage etc. For this purpose the contractor shall be allowed to keep his own security inside the premises

22.7 Coordination with other agencies

- i) Contractor shall be responsible for proper coordination with other agencies operating at the site of work so that work may be carried out concurrently, without any hindrance to others. The Engineer - in - Charge shall resolve disputes, if any, in this regard, and his decision shall be final and binding on the Contractor.

22.8 Underground and overhead structures

- i) The Contractor will familiarize himself with and obtain information and details from the Owner in respect of all existing structures, and utilities existing at the job site before commencing work. The Contractor shall execute the work in such a manner that the said structures, utilities, etc. are not disturbed or damaged, and shall indemnify and keep indemnified the Owner from and against any destruction thereof or damages thereto. It is the responsibility of the Contractor to take care to avoid unnecessary damages to the adjacent areas. He shall solely be held responsible if any damage occurs due to his/her negligence in this aspect.

22.9 Working hours

- i) Depending upon the requirement, time schedule / drawing/ programme and the target set to complete the job in time, the works may also have to continue beyond normal working hours/night hours / holidays or during such periods without causing any inconvenience to the neighbors /others with due permission from concerning authorities, for which no extra claim shall be entertained. Without responsible representative of the contractor, no work shall be allowed inside the premises.

ii) Project Scheduling and Monitoring: The following schedules / documents / reports shall be prepared and submitted by the CONTRACTOR for review / approval at various stages of the contract.

iii) After placement of Work Order Upon placement of Work Order, Contractor has to furnish a detailed bar chart within 15 days of issue of Final Work Order

22.10The contractor shall ensure that heavy vehicles carrying weight more than 9 tonne are not allowed to enter the campus

23. EXTENSION OF TIME:

23.1. If the work(s) be delayed by:-

- i) Force majeure, or
- ii) Abnormally bad weather, or
- iii) Serious loss or damage by fire, or
- iv) Civil commotion, local commotion of workmen, strike or lockout, affecting any of the trades employed on the work, or
- v) Delay on the part of other contractors or tradesmen engaged by the Government/Department, in executing work not forming part of the Contract, or
- viii) Any other cause which, in the absolute discretion of the authority is beyond the Contractor's control, then upon the happening of any such event causing delay, the Contractor shall immediately give notice there-of in writing to the Engineer In-Charge but shall nevertheless pursue constantly his best endeavors to prevent or make good the delay and shall do all that may be reasonably required to the satisfaction of the Engineer In-Charge to proceed with the works.

23.2. Request for the necessity of extension of time, to be eligible for consideration, shall be intimated by the Contractor in writings within 14(fourteen) days of the happening of the event causing delay on the prescribed form. The Contractor may also, if practicable, indicate in such a request the period for which extension is desired.

23.3. In any case, the accepting competent authority may give a reasonable extension of time for completion of the work which shall be intimated to the contractor by the Engineer In-Charge in writing within 30(thirty)days from the date of receipt of such request.

23.4. Formal request for extension of time for a specified period shall be submitted to the Engineer In-Charge at least 6(six) months before the expiry of the contract period in proper form. The request for extension of time shall be accompanied with justifiable reasons for the request.

23.5. Extension of time shall also be advisable in the case of temporary suspension of the work order in writing by the Engineer In-Charge.

24. SUB – LETTING OF CONTRACT:

The contract or any part thereof shall not be assigned, transferred, sublet (engagement of labour on a piece-work basis or of labour with materials not to be incorporated in the work, shall not be

deemed to be sub-letting) or otherwise parts with or attempts to assign, transfer sublet or otherwise parts with the entire works or any portion thereof without the prior written approval of the competent Authority.

25. SETTING OUT OF WORK:

- 25.1. The contractor shall be responsible for the true and proper setting out of work. Also shall be responsible for proper maintenance of all references/existing structures etc and other evidences existing in the field required in connection with the setting out of the work at the contractor's own cost till physical completion of all the items of the work or prior to that if agreed by the Engineer-in-Charge.
- 25.2. All such references etc established by the contractor shall be subjected to check and approval of the Engineer In-Charge or his authorized representative at all times. Any variation notice in the work as a result of improper establishment or maintenance of these shall be at the risk and expense of the contractor.

26. INSPECTION OF WORK:

- 26.1. The contractor shall either himself supervise the execution of the work or the competent Site Engineer/Technical expertise/Supervisory staff as per the supporting document submitted by the contractor along with the Technical/Pre-qualification bid and as approved by the competent Authority. If the Contractor fails to comply, then the Engineer In-Charge shall have full power to suspend the execution of the work until such date a Technical expert is appointed subjected to the approval of the Engineer In-Charge and the contractor shall be held responsible for the delay so caused to the work.
- 26.2. The Engineer In-Charge or the officer In-Charge is to have at all times access to the works which are to be entirely under his control. The Engineer In-Charge shall intimate or confirm his instruction to the contractor in respect of the execution of work in a "*Work Site Order Book*" and the contractor or his authorized representative shall confirm receipt of such instruction by signing relevant entries in his book. The contractor shall allow inspection of the registers and other documents by the inspection officer and the Engineer In-Charge or his authorized representative at any time.
- 26.3. One copy of the approved drawings furnished to the contractor, shall be kept by the contractor at the Site and the same shall be at all reasonable time available for inspections and for references by the Engineer In-Charge.
- 26.4. All works shall be subjected to examining and approval by the Engineer In-Charge, no work shall be covered up or put out of view prior to such approval and the contractor shall give due notice to the Engineer In-Charge or his authorized representative without unreasonable delay, attend for the purpose of inspection of the works.
- 26.5. Any other extra work(s) which is/are not included in the contract of work and agreement, such work(s) shall not be executed without prior information and approval of the Director in writing.

27. MEASUREMENTS AND RECORDS:

- 27.1. The Engineer In-Charge shall ascertain and determined by measurement the quantum of work in accordance with the contract of agreement and as per specifications.
- 27.2. For measurement of any part of the work, the Engineer In-Charge shall intimate the contractor who shall forthwith attend or send his authorized representative to assist the Engineer In-Charge/authorized representative in taking measurement and shall furnish all particulars and details as required.

27.3. Should the contractor not attend, neglect or decline to send his authorized representative, then the measurement taken by the Engineer In-Charge or approved by him shall be considered as correct and accurate measurement of the work. Measurement taken jointly shall be with dated signature by both parties for each day of measurement. The quantum of work under additional items, if ordered and approved by the competent authority for execution shall be ascertained by measurement.

28. DISPUTE:

In case of any disputes, questions or differences etc which may arise between the parties of the contract, it has to be brought to the notice of the Director of Soil & Water Conservation, Meghalaya, Shillong whose decision shall be final, conclusive and binding to the contractor. Any further dispute, beyond this shall be settled through arbitration, a sole arbitrator to be appointed by the Secretary to the Govt Of Meghalaya, Soil & Water Conservation Department and the arbitration proceeding shall be in accordance with the Arbitration & Conciliation Act 1996

29. FINAL CERTIFICATE:

29.1. Within 10(ten) days after the work is completed, the contractor shall intimate of such completion to the Engineer In-Charge and subsequently within 30(thirty) days of receipt of such notice, the Engineer In-Charge shall inspect the work and if there is no defect in the executed work ,shall furnish the contractor a Completion Certificate indicating the date of completion. If However, there are defects in the work which in the opinion of the Engineer In-Charge do not need re-construction and can be rectified, then a Certificate may be issued indicating –

(a). the date of completion

(b). defects to be rectified by the contractor as may required for rectification of defects.

29.2. No Certificate of completion shall be issued nor shall the work be considered as completed till the Site is finally cleared as provided for in *clause No.31* of this document, Except for such materials and equipments which may be required for rectification of defects.

30. FINAL CLEARANCE OF SITE:

On completion of the work, the contractor shall clear and remove from the premises on which the work shall be executed all scaffolding, surplus materials, rubbish and all huts and sanitary arrangements required for his/ their work people on the site in connection with the execution of the works as shall have been erected or constructed by the contractor(s) and cleaned off the dirt from all wood work, doors, windows, walls, floor or other parts of the building, in, upon, or about which the work is to be executed or of which he may have had possession for the purpose of the execution thereof. If the contractor shall fail to comply with the requirements of this Clause as to removal of scaffolding, surplus materials and rubbish and all huts and sanitary arrangements as aforesaid and cleaning off dirt on or before the date fixed for the completion of work, the Engineer In-Charge may at the expense of the contractor remove such scaffolding, surplus materials and rubbish etc., and dispose of the same as he thinks fit and clean off such dirt as aforesaid, and the contractor shall have no claim in respect of scaffolding or surplus materials as aforesaid except for any sum actually realized by the sale thereof.

31. DEFECT LIABILITY:

31.1. The contractor shall be responsible to make good and remedied, at his own expenses with in such a period as may be stipulated by the Engineer In-Charge any defect which may develop or may be noticed before the expiry of a period of 12(twelve) months herein after referred to as the *Defect*

Liability Period from the certificate of completion and intimation in writing of which shall be sent to the contractor in person or by registered post.

- 31.2. In the event whereby the contractor fails to rectify the defect or damage within the stipulated period as notified by the Engineer In-Charge in his aforesaid notice, then the Engineer In-Charge may rectify or remove or re-execute the work and replace with other materials/articles complained of, as the case may be by other means at the risk and expenses of the contractor.

32. CANCELLATION OF CONTRACT IN FULL OR IN PART:

- 32.1. If the contractor:

- a) fails to complete the works or items of work with individual dates of completion, on or before the date(s) of completion, and does not complete them within the period specified in a notice given in writing in that behalf by the Engineer In-Charge/competent authority; or
- b) commits default to complying with any of the terms and conditions of the contract and does not rectify it or take effective steps to remedy it within 7 days after a notice in writing is served to him in that behalf by the Engineer In-Charge/competent authority; or
- c) If contractor at any time makes default in proceeding with the works or any part of the work with due diligence and continues to do so after a notice in writing of 7 days from the Engineer In-Charge/competent authority.

In such cases, the Competent/Accepting Authority, without prejudice to any other right or remedy which may have occurred or shall occur thereafter by written notice cancel the contract in whole or in part.

- 32.2. The competent/Accepting Authority shall on such cancellation have powers to:

- a. take possession of the site and any materials , constructional plants, implements, stores, etc, there-on and
- b. carry out the incomplete work by any means at the risk and expenses of the contractor.

- 32.3. On cancellation of the contract in full or in part, the Engineer In-Charge shall determine what amount if any is recoverable from the contractor for the completion of the entire work and for the losses or damages suffered by the Department. In determining the amount, credit shall be given to the contractor for the quantum/value of the work executed by him up to the time of cancellation, the value of contractor's materials taken over and in-corporate in the work and use of machinery belonging to the contractor.

33. LABOUR REGULATION:

- 33.1. The contractor shall employ skilled and experienced labourers in sufficient numbers to maintain the required rate of progress and quality to ensure workmanship or the degree specified in the contract and to the satisfaction of the Engineer In-Charge. The contractor shall not employ in connection with the work any person(s) who is below 14(fourteen) years of age. The contractor shall also abide by the provisions of the *Child Labour (Prohibition and Regulation) Act, 1986*. Failure to fulfill this requirement shall attract the penal provisions of this contract arising out of the resultant non-execution of the work.
- 33.2. The contractor shall furnish to the Engineer In-Charge fortnightly the distribution return of the number and description by the trades of work in which people are employed on the work.
- 33.3. The contractor shall not employ labour or staff of doubtful integrity of the State. If anti-State or anti-social elements are employed by the contractor, the contract agreement will be cancelled and no claim whatsoever will be entertained for any losses or damages.
- 33.4. For the purpose of all labour laws, the contractor shall be deemed as "Employer" in respect of the labourers employed by him for the contracted work. The department shall not take any liabilities whatsoever in this respect.

- 33.5. The contractor shall pay to the labourers employed by him adequate wages and shall be as per the rules and regulations framed by the Department/Government from time to time. The register of workmen and as register of wage-cum-muster roll shall be maintained and kept at the work Site.
- 33.6. The contractor shall see that sufficient numbers of technically qualified staffs are always at the site of the work during working hours, personally checking all the items of the work and paying extra attention to the specification and quality of work. For this purpose the bidder(s)/contractor should mention their own technical qualification/qualified technical supervisory staff with experienced during submitting the tender as credentials.

34. MATERIAL SOURCES:

- 34.1 Quarry for stones, sand, earth etc has to be ascertained from the site and approved by the Engineer In-Charge.
- 34.2. The bidder /contractor shall make their own independent investigations as to the availability as well as suitability of the various materials required for the construction subjected to the approval of the Engineer In-Charge.
- 34.3. No claim whatsoever will be admissible for any extra leads etc of materials conforming to the specifications shall be brought from all leads.
- 34.4. Payment of Forest Royalty on the forest products such as stone, sand, earth etc, will be recovered from the contractor's running bill. The rates of royalty shall be as per the prevailing rates of the State. However, recovery of the Forest Royalty will be exempted from those contractors who can furnish evidence that they have already paid the royalty at the time of purchase from the dealers/quarry owners and on such proof, no deduction will be made.

35. SPECIFICATIONS OF THE CONSTRUCTION WORK

- 35.1 The contractor shall execute the whole and every part of the work in the most substantial and workman like manner both as regards to materials and otherwise in every respect strictly in accordance with the specifications. The contractor shall also conform exactly, fully and faithfully to the design, drawings and instructions(in writing) in respect of the work signed by the Director of Soil & Water Conservation, Meghalaya, Shillong and 1(one) copy of the detail drawing together with specifications, and instructions shall be furnished free of charge to the contractor included in the standard specifications of Meghalaya Public Works Department or in any Bureau of Indian Standard or any other, published standard or code or, Schedule of Rates or any other printed publication referred to elsewhere in the contract.

The contract includes:-

- Foundation works
- RCC works
- Shuttering
- Masonry Works
- Plastering
- Brickwork
- Painting Works
- Gate fittings
- Curing
- Concertina coil fittings
- Any other works with specific to the site conditions

As per the approved drawing

- 35.2 The contractor shall comply with the provisions of the contract and with care and diligence execute and maintain the works and provide all labour and materials, tools and plants including for

measurements and supervision of all works, structural plans and other things of temporary or permanent nature required for such execution and maintenance in so far as the necessity for providing these, is specified or is reasonably inferred from the contract. The Contractor shall take full responsibility for adequacy, suitability and safety of all the works and methods of construction.

36. **PAYMENT TERMS AND CONDITIONS**

- i) No Advance or Mobilization Payment will be paid to the Contractor
- ii) Contractor can opt for payment of Maximum of Four (4) bills which includes the Final Bill
