

SUCCESS STORIES UNDER 102 (08) WATER CONSERVATION AND DISTRIBUTION WORKS (DURING 2024-25)

The Water Harvesting Structure of Smt. Verily K. Jahrin hailing of Jakrem Village

The Office of The Divisional Soil & Water Conservation Division, Mawkyrwat under the Scheme 102(08) Water Conservation and Distribution Works had constructed a Water Harvesting Structure at Jakrem Village (GPS Coordinates N 25.387461° L 91.501445°) during the year 2023-24. The Water Harvesting Structure was constructed at the cost of Rs.11,00,000/- with dimension of 20x36x1.5. The WHS was constructed on the land of Smt. Verily K. Jahrin hailing from Jakrem Village. The WHS has an impounding water capacity of 1080m³. Before construction, the area on which the Water Harvesting Structure constructed was unproductive as such the owners had left the land barren for many years. After the constructions, the structure was able to harvest the rainwater and was able to irrigate approximately 1 Ha. Of the area downstream.
